

Open student positions

Join our team now!

With a focus on "**Optics for AI and AI for Optics**", our research interests are:

- Optical computing
- Photonic neural networks
- Fiber optics and lasers
- Nonlinear wave phenomena
- Ultrafast optics and imaging
- Optical waveguides

We explore and employ nonlinear dynamics in optics to develop photonic technologies and solutions. Motivated **undergraduate and graduate students** encouraged to contact Prof. Uğur Teğın (utegin@ku.edu.tr). For more details, check out lpt.ku.edu.tr
